OpsCen/SIDO:

DCI is briefing the special CIA subcommittee (RIVERS) of House Armed Services Committee at 0830 in the Rayburn Building.

Bulk of the briefing, non-substantive matters prepared by General Counsel and Legislative Counsel. DCI will be accompanied by [] and a Leg/Couns. aide equipped with Vu-graph.

STATINTL

Our contribution, Vietnam , and the recurring question of missiles in Cuba. DCI also has his global background book, with some 35 country briefings updated today.

I understand DCI will be going directly from home to the hill, which probably means an early run from here to DCI's home for the BO. Office of Leg Counsel will presumably be depositing one fat satchel for DCI and another for [] to be delivered with BO to DCI's residence unless called for earlier.

STATINTL

CUBAN MISSILES attached, and VIETNAM will be when it's printed.
